Year 7 RVE – Milestone 1

Design Your Own Church!

You have been given an exciting **challenge!**

Your task is to design a church that can be used by **three different Christian groups.**

Use what you have learnt in your RVE lessons to help you.

Year 7 RVE – Milestone 1

Design Your Own Church!

You have been given an exciting challenge!

Your task is to design a church that can be used by three different Christian groups.

You will need to think carefully about the features of your church and explain how your design reflects Christian beliefs.

Use what you have learnt in your RVE lessons to help you.

Dear Architect,

We are writing to ask for your assistance in designing a building that will become a worldwide landmark. Various churches in Britain would like you to design a church for at **least 3 different** denominations. We believe that a building where we can worship and work together is a wonderful way of celebrating over 2000 years of Jesus Christ and we would like it to be a building that will survive well into the future. We do hope that you will be able to come up with a striking design that will be able to meet **all** of our various needs. We look forward to seeing your design.

Yours sincerely

Church Committee

You are an architect! Your task is to design a church that can be used by three different Christian groups.

Your project must include:

1. A creative name for your church.

2. A labelled drawing of your church, showing its important features.

3. An explanation of why you have chosen these features and how they meet the needs of all three Christian groups.

4. An explanation of why churches are important to Christians.

5. Information about the three Christian groups you have chosen.

Use what you have learnt in your RVE lessons to help you!

Take It Further – Make Your Church Stand Out!

Think carefully about how you can make your church suitable for different Christian groups.

1. Worship – Will your church have spaces for quiet prayer and lively worship?

2. Community – Could your church include spaces for coffee mornings, charity events or children's groups?

3. Design – What shape will your church be? Could it be shaped like a cross, circle or triangle? Why have you chosen this shape?

Remember: The best designs explain WHY each feature has been included!

When explaining your church design, think about:

1. Features – What have you included in your church? (e.g. altar, font, pews, cross).

2. Reasons – Why have you chosen these features? What are they used for?

3. Christian Groups – How will your church meet the needs of three different Christian groups?

4. Compromise – What have you included to make sure different Christian groups can worship together?

5. Importance – Why is your church important to Christians? How does it reflect their beliefs?
